Reorganizing the Army.

WASHINGTON, March 25,-The Cor mittee on Military Affairs to-day agreed Representative Banning's bill, with some amendments, and ordered it to be reported lavorably to the House. It does not reduce the present effective force of the army, but reduces the number of infantry regiments from twenty-five to twenty, and the cavalry from ten to eight, thus reducing the number of infantry officers fifter, and increases the size of the companies and regiments. It does away with the regimental organization of the artillery, reducing the field officers of artillery seventeen. It consolidates the Cavalry seventeen. It consolidates the Cavalry seventeen. It consolidates are consolidates and results and private develings have substituted oil.

Business is dull in most all branches the consolidates are consolidates and leather business. upon a bill to organize the army, it being Representative Banning's bill, with some egimental organization of artillery sev-educing the field officers of artillery sev-It consolidates the Quartermasenteen. It consolidates the Quartermas-ter and Commissary Departments into one, designated as the Department of Sup-plies, making a large reduction of officers. It provides for a board to examine offi-cers and for the discharge of all worth-less and inefficient officers, and for an examination of the condition of retired officers. All officers who lose their places under the bill are placed upon a list of supernumeraries, and are permitted to resign with one year's pay for each eight years of service, or remain in service to perform such duty as they may be assign-ed to.

It provides for the education of non It provides for the education of non-commissioned officers and soldiers by the commissioned officers, and for the pro-motion of non-commissioned officers to commissioned officers. It abolishes the office of Judge Advocate, fixes the pay of first sergeant at \$40 per month, makes the headquarters of the General of the Army at Washington in time of peace, and provides that he may act as Secretary of War in the absence of the Secretary or temporary vacancy in the office. It provides that sutlers and post trad-cers shall be first elected by a council of the Administration, approved by the

e Administration, approved by the department commander and the General of the Army, and appointed by the Secretary of War. It reduces the staff of all general officers, and requires the General of the Army to report reforms to Congress annually and to look to economy in all branches of the army. The bill is approved by the testimony of many of the best officers in the army. It is a reduction of about two hundred officers, and proposes reforms which, if adopted, will, it is claimed, add greatly to the efficiency of the army.

RELIGIOUS AND THEOLOGICAL.--It is estimated that half a million of dollars are spent annually in supporting the Presiding Elders of the Methodist Episcopal Church.

The Hon. W. T. Willey closed the

services at the Morgantown Presbyterian Church, Sunday morning week, with

attached to such buildings necessary for the proper occupancy, use and enjoyment of the same, and not leased or otherwise used with a view to profit, to an amount which shall not exceed \$3,000 in value for each house, the books and furniture therein, and lot as above mentioned.

Mr. Converse moved to amend the amendment by adding "and all riches laid up by any citizen where moth and ast do not corrupt," [Laughter.]
The Chair decided that the riches re ferred to in this amendment are not within the jurisdiction of this State. [Renew ed laughter.]

Hoge supported the bill in a very able speech, in the course of which he pre-sented the following statistics bearing on

it we Pellets are blessings to the world. According to the census of 1850 the aggregate value of church property in the Luited States exempted from taxation was \$87,328,801. In 1880 it had nearly doubled, being \$171,337,932. During the next ten years it again doubled, and more, the census of 1870 showing \$354,435,881. It is reasonable to presume that the increase since 1870 has been in the same ratio, and that the present value of untaxed church property in the United States is about \$525,000,000. At this rate of progression, in the year 1890, 1400,000,000, and in 1900, only twenty-four years hence, it will reach the enormous sum of \$3,000,000,000. But laying aside the estimated future values, and side the estimated future values, and great the sum of the control of the contr aside the estimated future values, and considering only the amount of church property in the country at this time, cermay we not ask the question whether it is wise, or politic, or just to the over-bur-dened tax payers of the United States, that this vast amount should remain up taxed? Is there any valid reason why it should not bear its share of the burder and pay its legitimate proportion for the protection it receives?

terrible eating ulcers and free the blood of the virulent poison causing them, who can longer doubt its wonderful virtues? Dr. Pierce, however, does not wish to place his Golden Medical Discovery in the catalogue of quack patent nostrums by recommending it to cure every disease, nor does he so recommend it; but what he does claim is this, that there is but one form of blood dis-case what it will not cure, and that disease is causer. He does not recommend his Dis-covery for that disease, yet he knows it to be the most careching blood cleaner yet covery for that disease, yet he knows it to be the most searching blood cleanser yet discovered, and that it will free the blood and system of all other known blood poisons be they animal, vegetable or mineral. The Golden Discovery is tearcarted by him to cure the worst forms of Skin Diseases, as all forms of Blotches, Pimples and Eruptions, also all Glandular Swellings, and the worst form of Scrofulous and Ulcerated Sores of Neek, Legs or other parts, and all Scrofulous Diseases of the Lones, as White Swellings, Fever Sores, Hip Joint and Spinal Diseases, all of which belong to Scrofulous diseases.

Bishop Johus.

From the Charleston Courier of the 23d.]

The anxiety felt by the many friends of Bishop Johns, of the Episcopal Church of this Diocese, warrants us in making the following extract from a private letter to the course of the c

ter at 88. Central Pacific advanced to 107% bid. Union Pacific sinking funds received on yeaterday, from Alexandria, V.a., near which city the Bishop resides, giving information as to his condition up to Monday last, and which has been kind by placed at our disposal.

To-day (Monday) the report from Bishop Johns is favorable. He is lying in a very critical condition. He was taken sick with a violent cold which resulted in paralysis of the stomach. He is now in his eighticht year, and according to the course of nature we can not hope to retain hum much longer. Just before he was paralyzed he held family prayer in bed, and the burden of his prayer was for the dear old Seminary and the Diocese. He says he fears his work on earth is finished, though imperfectly done. We very much hope the Bishop may be spared to preside over the Convention in May, and we are sure many hearts in the Diocese will echo the hope. His children are all with him and the assistant Bishop arrived this morning.

TESTIMONIALS.

PARKERBURG, April 16, 1800.

T. H. Legan, Esq.:

Drar Sin.—I wrote to you some time since for a bottle of Herntlinger's Fluid Extract of Sarssparilla, and must say that it has acted upon me like a cham. I have been affilted for near two years with Dyspepais; two-thirds of the time I consider from one to three times a day. I had given up the from one to three times a day. I had given up the had given up all hopes of my ever exting well again. Added to this, I suffered with Scroula very much. Since last September one side of my next was one entire sore. The use of one bottle has much improved me; my stomach is apparently relived; my peck has improved beyond my most anguine expectations. I feel much encouraged and think by the use of one or two bottles more I shall be relieved entirely. You will please send by one of the boats. I with to give it a fair trial, Send by one of the boats. I with to give it a fair trial, Send by one of the boats.
